SAFETY DATA SHEET

1. Product and Company Identification **Product identifier** TOTAL K.O.-ACIDIC CLEANER FOR CONCRETE MIXERS Other means of identification Not available Recommended use Acid concrete cleaner **Recommended restrictions** None known. **D.L. INDUSTRIAL SUPPLIES** Manufacturer ONTARIO, KOA 1M0 Tel.: 1 888-214-3207 - Cell.: 613 884-3207 www.totalko.ca Emergency Phone only, 24 hours: (613) 996-6666 (CANUTEC) 2. Hazards Identification GHS classification in accordance with (CAN) WHMIS 2015 **Physical Hazards** Corrosive to metals Category 1 **Health hazards** Eye damage/irritation Catégory 1 Skin corrosion/irritation Category 1B Specific target organ toxicity, single exposure Category 3 **Environmental hazards** Not classified. **OSHA** defined hazards Not classified. Label elements Signal word Danger Hazard statement May be corrosive to metals Causes severe skin burns and eye damage Causes serious eye damage. May cause respiratory irritation May cause drowsiness or dizziness **Precautionary statement** Do not breathe dust/fume/gas/mist/vapours/spray. Avoid breathing Prevention dust/fumes/gas/mist/vapours/spray. Wash hands thoroughly after handling.Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Response IF SWALLOWED: RINSE mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing. Immediately call a POISON CENTER/doctor. call a POISON CENTER/doctor if you feel unwell. Specific treatment (see this label). Wash contaminated clothing before reuse. Store in a well ventilated place. Keep container tightly closed. Absorb spillage to prevent material damage. Keep only in original container. Store locked up. Store in a corrosive resistant container or a Storage container with resistant inner liner. Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

3. Composition/Information on Ingredients

Mixture			
Chemical name	Common name and synonyms	CAS number	%
Hydrochloric acid		7647-01-0	15 - 40

Μ

Hy

	4. First Aid Measures
Inhalation	If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center/doctor/.
Skin contact	If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. Specific treatment (see product label). Immediately call a poison center/doctor/.
Eye contact	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.
Ingestion	If swallowed: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center/doctor/.
Most important symptoms/effects, acute and delayed	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Wear rubber gloves and chemical splash goggles. Keep out of reach of children.
	5. Fire Fighting Measures
Suitable extinguishing media	Treat for surrounding material.
Unsuitable extinguishing media	Use appropriate extinguisher, as surrounding material.
Specific hazards arising from the chemical	Firefighters should wear a self-contained breathing apparatus.
Special protective equipmentandprecautionsfor	Firefighters should wear full protective clothing including self contained breathing apparatus.
firefighters Fire-fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods Hazardous combustion products	May include and are not limited to: Hydrochloric acid, acid vapours.
Explosion data	
Sensitivity to mechanical impact	Not available.
Sensitivity to static discharge	Not available.
	6. Accidental Release Measures
Personal precautions, protective equipment and emergency procedures Methods and materials for	Keep unnecessary personnel away. Keep out of low areas. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
containment and cleaning up	Large Spills: Stop leak if you can do so without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Prevent entry into waterways, sewers, basements or confined areas.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground. Do not discharge into lakes, streams, ponds or public waters.
	7. Handling and Storage
Precautions for safe handling	Use only with adequate ventilation. Avoid prolonged exposure. Wear appropriate personal protective equipment. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. Avoid breathing vapors or mists of this product. DO NOT get in eyes, on skin or clothing.

Store locked up. Store in corrosive resistant container with a resistant inner liner. Keep only in the original container. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure Controls/Personal Protection

Occupational exposure limits

Components Hydrochloric acid	Value Ceiling : 5 ppm OSHA Final PEL
Biological limit values Appropriate engineering controls	No biological exposure limits noted for the ingredient(s). Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Individual protection measures,	such as personal protective equipment
Eye/face protection	Chemical splash goggles.
Skin protection	
Hand protection	Chemical resistant gloves. Confirm with a reputable supplier first.
Other Respiratory protection	Wear appropriate chemical resistant clothing. As required by employer code. Where exposure guideline levels may be exceeded, use an approved NIOSH respirator. Not applicable.
Thermal hazards General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Wash hands before breaks and immediately after handling the product.

9. Physical and Chemical Properties		
Appearance	Clear	
Physical state	Liquid.	
Form	Liquid	
Color	Brown	
Odor	Acidic	
Odor threshold	Not available.	
рН	1.0	
Melting point/freezing point	< 0°C	
Initial boiling point and boiling range	Not available	
Pour point	Not available.	
Partition coefficient (n-octanol/water)	Not available	
Flash point	> 95 °C	
Evaporation rate	Not available	
Flammability (solid, gas)	Not applicable.	

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available
Flammability limit - upper (%)	Not available
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available
Vapor density	Not available
Relative density	1.15
Solubility(ies)	Complete
Auto-ignition temperature	Not available
Decomposition temperature	Not available.
Viscosity	Not available.
	10. Stability and Reactivity
Reactivity	Strong Alkaline products. This product may react with oxidizing agents.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Chemical stability	Stable under recommended storage conditions
Conditions to avoid	Reacts violently with strong bases. This product may react with oxidizing agents.
Incompatible materials	Oxidizing agents. Alkalines products
Hazardous decomposition	

May include and are not limited to: Hydrochloric acid, carbon oxide, acid vapours.

11. Toxicological Information

Routes of exposure

products

Eye, Skin contact, Inhalation, Ingestion.

Information on likely routes of exposure

Ingestion Causes digestive tract burns.

Inhalation Prolonged inhalation may be harmful.

Skin contact Causes severe skin burns.

Eye contact Symptoms related to the Causes severe skin burns. Causes serious eye damage. Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may

physical, chemical and include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity

Components	Species	Test Results
Hydrochloric acid		
Acute		
Oral LD50	Rat	238 – 277 mg/kg
Dermal LD50	Rabbit	5010 mg/kg
Inhalation LC50	Rat	3124 ppm (1 Heure)

Skin corrosion/irritation	Causes severe skin burns and eye damage.
Exposure minutes	Not available.
Erythema value	Not available.
Oedema value	Not available.
Serious eye damage/eye irritation	Causes serious eye damage.
Corneal opacity value	Not available.
Iris lesion value	Not available.
Conjunctival reddening value	Not available.
Conjunctival oedema value	Not available.
Recover days	Not available.

Respiratory or skin sensitization

Respiratory sensitization	Not available.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	Non-hazardous by WHMIS/OSHA criteria.
Mutagenicity	Non-hazardous by WHMIS/OSHA criteria.
Carcinogenicity	None
Reproductive toxicity	Non-hazardous by WHMIS/OSHA criteria.
Teratogenicity	Non-hazardous by WHMIS/OSHA criteria.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not available.
Chronic effects	Prolonged inhalation may be harmful.
Further information	Not available.
Name of Toxicologically	Not available.
Synergistic Products	

12. Ecological Information		
Ecotoxicity Because of the very low pH of this product, it would be expected to produce sign upon exposure to aquatic organisms and aquatic systems. See below		
Components	Species	Test Results
Hydrochloric acid	Fish (96 heures)	Acute LC50 : 282 mg/l
Persistence and degradabil	ity No data available	
Bioaccumulative potential	No data available	
Mobility in soil	No data available	

Mobility in soil	No data available
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal Considerations		
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.	
Local disposal regulations	Dispose in accordance with all applicable regulations.	
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.	
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).	
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.
